**Trestle II Build Your Own Table.** Trestle tables are known for their stability and strength. They do, however, have limitations on size and are also known for being knee knockers. The Trestle II Build Your Own Table solves both these issues by creating a base that is narrower and changes in size to accommodate a wider range of table sizes.

**36"w x 48"l** solid top .......................................................SACT3648-S
